

Underground Mine Engineer

Department: Underground Engineering

Supervisor: Mine Engineer in Training (EIT)

Job Level: Salary - pay commensurate with experience

Work Hours: 4, 10 Hour, Days

Position Description:

Would you like to have a career with a collaborative, diverse, and dynamic mining company? We have an exciting opportunity for you!

Nevada Gold Mines operated by Barrick is looking for an Underground Mine Engineer to join the Engineering team at one of our Underground Operations.

Responsibilities:

- Develop, update and implement practical mine plans which allow for orderly development and exploitation of economically mineable ore reserves
- Coordinate assigned production and engineering activities including backfill, ventilation, utilities (air, water, power), QA/QC and ground support engineering
- Must be willing to complete an operational rotation
- Perform other duties as assigned

Qualifications:

- Bachelor's degree in Mining Engineering or related field **required**
- One (1) year of underground mining environment experience **preferred**
- Strong verbal and written communication skills **required**
- Excellent computer skills **required**
- Demonstrated software proficiency with Deswik, Vulcan, VentSim and Microsoft Office Suite **preferred**
- Excellent safety record with the ability to demonstrate safety leadership **required**
- Demonstrated ability to perform all essential functions of the job **required**

What We Can Offer You

- A comprehensive compensation package including bonuses benefits, and stock purchase plans where applicable
- Ability to make a difference and lasting impact
- Work in a dynamic, collaborative, progressive, and high-performing team
- An Opportunity to transform Traditional Mining into the future of Digital Mining
- Opportunities to grow and learn with the industry colleagues are endless
- Access to a variety of career opportunities across Barrick locations
- Barrick is committed to creating a diverse environment and is proud to be an equal opportunity employer.

About Nevada Gold Mines

Nevada Gold Mines Operated by Barrick (NGM) is a joint venture between Barrick (61.5%) and Newmont (38.5%) that combined our significant assets across Nevada in 2019 to create the single largest gold-producing

complex in the world. NGM produces approximately 3.5 million ounces of gold a year. The massive mining operation comprises eight mines along with their associated infrastructure and processing facilities and hosts three of Barrick's Tier One assets: Carlin, Cortez, and Turquoise Ridge. At NGM, our mission is to be the world's most valued gold mining business by finding, developing, and owning the best assets, with the best people, to deliver sustainable returns for our owners and partners.

Thank you for your application, however, only those selected for an interview will be contacted.
