

Come and join our growing Team!

The Prospec group of companies is an expanding company owned and based in Sudbury, Ontario. The Prospec group focuses on Engineering and Fabrication projects based mainly in Northern Ontario and primarily in the mining and heavy industrial sectors. We are a team of approximately 20 team members from labourers, apprentices, and professionals.

Currently, we are looking to recruit an individual to work in a hybrid setting, including our office and fabrication facility in Sudbury, along with on-site and remote work opportunities. Since our founding, we've worked with numerous clients throughout the Northern Ontario area. Great service begins and ends with experienced and friendly professionals, which is why we put so much consideration into selecting only the best to join our team. We complete projects efficiently and on schedule, and go above and beyond to form lasting relationships with our clients.

Prospec is seeking an individual to aid in the completion of Projects and M&E engineering work. The successful applicant will work alongside our Engineering and Production Management teams to assist in the successful delivery of projects. Responsibilities will include the following:

- Lead and support continuous improvement initiatives through development and improvement of current manufacturing and engineering practices and processes, along with the improvement of efficiencies across operation
- Integrate with Business Development, Engineering and Production teams to support projects from cradle to grave
- Utilize technical knowledge and experience to develop solutions to customer provided technical challenges
- Interact with clients and businesses development personnel to build relationships with customers and other technical personnel
- Support on site commissioning and management for projects that include installation or construction aspects

Along with a strong work ethic, the successful candidate will also possess the following qualities:

- Computer Literacy
- Experience in 2D and 3D design work (Solidworks, Inventor, CAD)
- Eligible to obtain Professional Engineering License
- Able to work remotely and on site

The following qualities would be considered an asset for this position:

- Registered with PEO
- Background in Project or M&E Engineering
- Experience working for an Engineering Service Provider
- Previous work with fabrication facility

Job Types: Full-time, Part-time, Casual

Salary: \$30.00-\$40.00 per hour

Benefits:

- Casual dress
- Company pension
- Dental care
- Extended health care
- Vision care
- Work from home

Schedule:

- 8 hour shift

Ability to commute/relocate:

- Greater Sudbury, ON: reliably commute or plan to relocate before starting work (preferred)

Education:

- Bachelor's Degree in Engineering OR
- Currently enrolled in an engineering program
